

# TALKING SCIENCE

*with*

# Matteo Carandini

Professor of Visual Neuroscience at UCL, co-initiator of the Neuropixels and International Brain Lab collaborations, renowned for his experimental and theoretical work on understanding cortical computations

## programme

Wednesday, 12.12. at 10:00  
LMU Biocenter, B01.027

Julius Bernstein lecture  
From Vision to Navigation:  
A Journey across Mouse Cortex

Thursday, 13.12. at 11:00  
LMU Biocenter, D00.003

Open discussion forum  
Probing the Textbook Model of Brain Function

Wednesday, 12.12.  
LMU Biocenter, D00.003

Round table discussions and meetings  
(details online)

## registration

[www.talking-science.de](http://www.talking-science.de)

## audience

neuroscience graduate students of Munich
